

Customized Solutions

Angst+Pfister's engineering team develops every year many different solutions specifically designed for the food processing industry. Our solutions are all compliant to the European Law, such as EC 1935/2004 (food contact materials). Furthermore, they meet nation-specific regulations for food treatment, pharmaceuticals and drinking water. Our customers benefit from our competitive advantages through a solid partnership with Angst+Pfister which proves time and again that co-design projects are the best solutions to reduce time-to-market.

Furthermore, we are proud of our Quality Management process, making Angst+Pfister a market leader in product conformity within the food and beverage industry.

Meeting the highest industry standards

		EC 1935/2004 EC 10/2011

Our customers include

Services from Angst + Pfister Group

Angst+Pfister – Your supply and solutions partner

The Angst+Pfister Group is a leading international technical manufacturer and service provider for high-end industrial components. As a supply and solutions partner for engineering plastics, sealing, fluid handling, drive, and antivibration technology as well as

sensors, Angst+Pfister combines efficient logistics concept with comprehensive product application engineering services. Besides providing customer-specific parts, the Group offers a product range consisting of approximately 100,000 standard items.

Technical Solutions for
Food Processing Industry

Angst + Pfister – Your Partner for Food Processing and Packaging Technology

Ensuring smooth operations along the food processing and packaging lines

For over half a century, Angst + Pfister has served the leading manufacturers and operators within the food processing and packaging equipment industry by supplying them with uncompromisingly high-quality products and comprehensive engineering solutions. Forward-looking products, innovative capabilities and an insightful understanding of our customers' needs make Angst + Pfister the ideal solutions and logistics partner for the food industry.

Working together to design successful solutions

APSOseal® Sealing Technology

High dependability with quality O-Rings, rotary shaft seals, profiles and flat gaskets for food processing machinery.

APSOfluid® Fluid Handling Technology

High-quality engineering solutions for all drinking-water and food-grade hoses.

APSOplast® Engineering Plastics Technology

High-tech products made from materials that meet all of the relevant food industry standards.

APSOdrive® Drive Technology

Mechanical and electrical drive solutions for smooth operation along the conveyor belts.

APSOvib® Antivibration Technology

Features a broad product line specifically designed to dampen vibrations and minimize noise emissions.

From Standard Products to Customer-specific Solutions

Over the years, Angst + Pfister has built up a comprehensive team of highly qualified application engineers who have amassed expertise across a broad range of industries. Under the APSO (Angst + Pfister Solutions) brand, our engineering specialists develop customized solutions for practically any application within our five core product areas. Let our engineers serve you with tailor-made solutions in the areas of Antivibration Technology, Fluid Handling Technology, Sealing Technology, Engineering Plastics Technology and Drive Technology.

Engineering services: Expertise all along the line

Technical industry expertise from around the globe that benefits our local customers:

- design-in and development support (CAD, CAE)
- experimental validation and virtual design
- material and compound specification
- industry approvals and certifications
- technical seminars and training courses

The perfect global production platform: High-quality components for the highest requirements

Angst + Pfister has production facilities in 15 countries worldwide. This global orientation provides our customers with the most cost-effective production environment – even before considering our competitive ability to meet quantity, logistic and quality requirements. Being a company that is certified according to ISO-9001:2000, we make every effort to completely meet the quality requirements of our customers.

Reliable logistics and customer focus worldwide

A comprehensive logistics infrastructure ensures that the right products are getting to their destination when and where they are required. Highly efficient processes, supported by an electronic order processing system, characterize the Angst + Pfister Logistics Center. Thanks to our extraordinary international network, a “just-in-time” delivery is supplied to all our customers, no matter the location.
