

APSOplast® – Semi-finished plastic products

Plastics are used in the most diverse areas. Thanks to innovations and new developments, new materials with excellent properties are constantly coming onto the market. Angst+Pfister constantly follows the dynamic development of plastics technology and offers a comprehensive range of services for practically every application.

Angst+Pfister offers a comprehensive range of semi-finished products with more than 100 different types of plastic – from simple standard plastics to extremely high-performance plastics as well as specially modified plastics for, for example, explosion protection according to ATEX (Atmosphère explosible). For applications in the food industry and medical technology, we offer the required product conformity and approvals such as FDA, EC 1935/2004; EU 10/2011, ISO 10993 and USP.

Special Features

- Over 100 different materials in stock
- More than 2000 stocked articles
- Standard formats up to 3050 x 2050 mm (depending on material)
- Panel cuts of all plastics in stock
- Pipe and rod sections of all plastics in stock

Your Benefits

- Short delivery times
- Competitive pricing
- Customer-specific reference forms possible (rolling planning, master contracts)

Overview of the semi-finished product geometries in stock

Standard Plastics

Material	Plate	Round bar	Tube	Foil	Other
PVC	x	x	x		welding wire; profiles
PE	x	x		x	
PP	x	x			welding wire
PMMA	x	x	x		
PC	x	x			
PUR	x	x	x		
Laminated pressed materials	x	x			

Engineering Plastics

Material	Plate	Round bar	Tube	Foil	Other
PA	x	x	x	x	
POM	x	x	x		
PET	x	x		x	

High Performance Plastics

Material	Plate	Round bar	Tube	Foil	Other
PPE	x	x			
PEI	x	x			
PPS	x	x			
PEEK	x	x			
PAI	x	x			
PI		x			
PBI	x	x			

Fluoroplastics

Material	Plate	Round bar	Tube	Foil	Other
PTFE	x	x	x	x	glass fabric
PCTFE		x			
PVDF	x	x			
FEP				x	
PFA				x	

Adhesives

For joining plastic-plastic, plastic-metal and plastic-elastomers
